Description and Scope

This project will perform conceptual design work, evaluate design alternatives and develop funding and implementation strategies for NE Spring Boulevard between 124th Avenue NE and 130th Avenue NE. This proposed segment of NE Spring Boulevard is a high priority east-west multi-modal connection that will improve access, circulation, and mobility options for passenger cars, transit, freight, pedestrians, and bicycles to and between the new Bel-Red transit-oriented-development nodes and the larger city and region. This future connection will support the area's redevelopment, attracting private investment in commercial and residential uses to create entirely new neighborhoods.

Rationale

The NE Spring Boulevard Zone 3 project is one of a number of high priority transportation investments that will make an important east-west connection to improve access, circulation, and mobility options for passenger cars, transit, freight, pedestrians, and bicycles to and between the new Bel-Red transit-oriented-development nodes and the larger city and region. This project will support the area's redevelopment, attracting private investment in commercial and residential uses to create entirely new neighborhoods.

Environmental Impacts

Environmental studies will be funded by this work A project specific environmental determination will be made in conjunction with the final design for this project.

Operating Budget Impacts

Ongoing maintenance and operating costs of the new facilities will be determined during the project's design phase.
