Title 20 Land Use Code

Part 20.25E Shoreline Overlay District

...

20.25E.100 Review and appeal procedures.

...

B. Framework for Decisions.

1. Shoreline Project Decisions on Permits, Approvals, and Exemptions. Shoreline decisions are divided into three processes based on who makes the decision, the amount of discretion exercised by the decision maker, the level of potential impact associated with the decision, the amount and type of public input sought, and the type of appeal available. Shoreline project decisions do not include legislative nonproject actions taken by the City Council and described in subsection B.2 of this section.
 - a. Shoreline Process I decisions are quasi-judicial decisions made by the Hearing Examiner ~~with a City appeal opportunity to the City Council~~. A petition for review (appeal opportunity) is ~~also~~ provided to the State Shoreline Hearings Board. Shoreline Conditional Use Permits are a Shoreline Process I decision.
 - b. Shoreline Process II decisions are administrative decisions made by the Director for which no City appeal opportunity is available. A petition for review (appeal opportunity) is provided to the State Shoreline Hearings Board. Shoreline Substantial Development Permits, shoreline variance approvals, permit revisions, and threshold determinations associated with a Shoreline Process II decision and made by the Environmental Coordinator under the State Environmental Policy Act (SEPA) are all Shoreline Process II decisions.
 - c. Shoreline Process III decisions are ministerial shoreline decisions made by the Director for which no administrative appeal opportunity is available to the Hearing Examiner or the Shoreline Hearings Board. Letters of Exemption are Shoreline Process III decisions.
2. Legislative Nonproject Actions. Legislative actions are taken by the City Council under its authority to establish policies and regulations regarding future private and public development and management of public lands. Amendments to the SMP are Land Use Process IV decisions governed by the procedures contained in LUC 20.35.400 through 20.35.450, Chapter 98.58 RCW, and Chapter 173-26 WAC. Process IV land use decisions that amend the SMP require approval by the Department of Ecology pursuant to the procedures contained in RCW 90.58.090.

20.25E.110 Shoreline Process I – Hearing Examiner quasi-judicial decisions.

A. Process Described.

1. Applicable Code Section. This section contains procedures the City will use in processing a Shoreline Process I decision. The specific Shoreline Process I procedures are in addition to the general procedures applicable to all shoreline project decisions contained in LUC 20.25E.100.
2. Type of Decision. Decisions on a Shoreline Process I application are quasi-judicial decisions made by the City Hearing Examiner based on a recommendation from the Director. This process begins with a complete application, followed by notice to the public of the application and a public comment period, during which time a public meeting will be held. The Director then makes a recommendation based upon the decision criteria set forth in the code for the applicable shoreline permit.
3. Incorporation of SEPA Threshold Determination. If required by the State Environmental Policy Act (SEPA), a threshold determination associated with a Shoreline Process I decision shall be issued by the Environmental Coordinator as a Land Use Process II decision pursuant to LUC 20.35.230 with an opportunity for appeal to the Hearing Examiner pursuant to LUC 20.35.250. The threshold determination should be issued in conjunction with issuance of the Director's recommendation on the application. If an Environmental Impact Statement (EIS) is required, however, the threshold determination will be issued early and the EIS will be completed before issuance of the Director's recommendation. If the requirement to prepare an EIS or a supplemental EIS is appealed by the applicant, that appeal will be resolved prior to issuance of the Director's recommendation.
4. Hearing Examiner Public Hearing. Following issuance of the Director's recommendation, a public hearing will be held before the City Hearing Examiner. If a SEPA Determination of Nonsignificance (DNS) was issued (no EIS required) pursuant to LUC 20.35.230 and an appeal of the DNS filed pursuant to LUC

Shoreline Master Program (SMP) Conformance LUCA Strike-Draft

20.35.250, the appeal hearing on the DNS will be combined with the public hearing on the Director's recommendation. Following the public hearing, the Hearing Examiner will issue a written report which will set forth a decision to approve, approve with modifications, or deny the Shoreline Process I application. The Examiner's report will also include a final City decision on any DNS or other nonshoreline appeal consolidated with the Shoreline Process I permit as described in LUC 20.25E.100.C.8.

~~5. City Appeal Opportunity. The decision of the Hearing Examiner on a Shoreline Process I permit is appealable to the City Council.~~

~~65. Shoreline Process I Decision – When the City Decision is Final. When a decision is made to approve, conditionally approve, or deny an application, the applicant shall be notified. Shoreline Process I decisions are final upon expiration of any applicable City administrative appeal period, or if appealed, on the date of the City Council's final decision on the application issuance of the Hearing Examiner's written decision on the application.~~

F. Hearing Examiner Decision on Shoreline Process I Applications.

1. Decision. The Hearing Examiner shall approve a project or approve with modifications if the applicant has demonstrated that the proposal complies with the decision criteria for the applicable shoreline permit. The applicant carries the burden of proof and must demonstrate that a preponderance of the evidence supports the conclusion that the application merits approval or approval with modifications. In all other cases, the Hearing Examiner shall deny the application.
2. Limitation on Modification. If the Hearing Examiner requires a modification which results in a proposal not reasonably foreseeable from the description of the proposal contained in the public notice provided pursuant to LUC 20.25E.100.D, the Hearing Examiner shall conduct a new hearing on the proposal as modified.
3. Conditions. The Hearing Examiner may include conditions to ensure that a proposal conforms to the relevant decision criteria.
4. Written Decision of the Hearing Examiner. The Hearing Examiner shall within 10 working days following the close of the record distribute a written report supporting the decision. The report shall contain the following:
 - a. The decision of the Hearing Examiner on the Shoreline Process I Permit and any nonshoreline appeals consolidated with the permit; and
 - b. Any conditions included as part of the decision; and
