Description and Scope

This ongoing program funds rehabilitation of the 36 pump and 10 flush stations in Bellevue's wastewater system. Stations are prioritized based on the risk and consequence of failure, maintenance and operations experience, pump station age, and coordination with other projects. Stations scheduled for work in 2023-2029 include: Wilburton, Newport, Cozy Cove, Pump Station 12, Parkers, South Ridge, Evergreen East, Evergreen West, and Fairweather.

Rationale

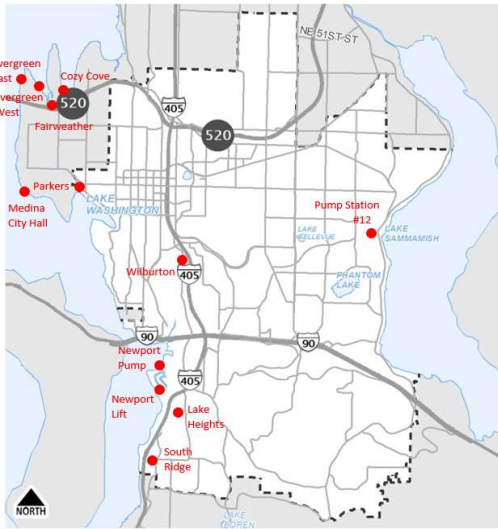

Sewer infrastructure rehabilitation and replacement is based on asset criticality and business risk, per industry best practices. In the short term, this program reduces the likelihood of catastrophic system failures, damage claims, and sharp rate increases to react to failures rather than proactively managing the system. In the long term, timely replacement or repair of wastewater facilities keeps customer rates as low as practical by managing the system at the lowest life-cycle cost, while maintaining service levels and meeting regulatory requirements.

Environmental Impacts

Operating Budget Impacts

This program will have no significant impact on operating revenues and/or expenditures.

Project Map

Schedule of Activities

<u>Project Activities</u>	<u>From - To</u>	<u>Amount</u>
Project Costs	Ongoing	47,393,155

Total Budgetary Cost Estimate: 47,393,155

Means of Financing

<u>Funding Source</u>	<u>Amount</u>
Transfers from Other City Funds	47,393,155
Total Programmed Funding:	47,393,155
