

The Transportation Department has a backlog of neighborhood safety, connectivity, sidewalk, bicycle, technology, and maintenance needs. The Neighborhood Safety and Connectivity Levy funding—approved by voters in 2016—helps the city to deliver more safety projects while being more responsive to community transportation needs. Projects funded by the Levy include pedestrian crossing projects, sidewalk, traffic calming projects, school traffic improvement projects, new and upgraded bicycle facilities, sidewalk and other maintenance needs, and traffic technology projects. Projects are located in every neighborhood in the city. Through the first 7 years (2017-2023) of the Levy, 70 projects have been completed.
