Smart Mobility Plan Implementation Program

Budget to Complete

\$4.3M

Attachment C

This program will systematically implement the recommendations of the City's Smart Mobility Plan completed in 2018. The funding provides the resources to plan and implement Smart Mobility technology in 5 areas: share-user mobility; data management & integration; autonomous, connected electric vehicles; real-time traveler information & traffic management. Projects will be selected to provide cost effective measures to manage traffic congestion, improve safety, limit impact to neighborhoods from cut-through traffic and increase the availability of real-time traffic information to user of the transportation systems. Repairs, upgrades & new installations of the citywide fiber optic network are partially funded through R-156. This network supports the communication to every traffic signal in the city, every facility owned by the City of Bellevue, public WiFi, WiFi for low income housing and a consortium of public/private partners.
