**Description and Scope**

This program improves access and connections for people walking and bicycling. Projects funded through this program enhance mobility for everyone and simultaneously promote community health and foster environmental sustainability. Program funds build discrete small projects and may be used to leverage grants, and to enable partnerships with other City programs, agencies, or the private sector to construct larger-scale projects.

**Rationale**

Through this program the City responds to citizen requests, emerging needs and partnering opportunities to construct small-scale non-motorized transportation projects. Program priorities – derived from policy support in the Transportation Element of the Comprehensive Plan – are to provide access and to enhance connections for people walking and bicycling to schools, shopping, jobs, transit, parks and other destinations.

**Environmental Impacts**

Environmental impacts are minimal and are addressed as appropriate on a location-by-location basis.

**Operating Budget Impacts**

Operating costs for this program will be determined on an as needed basis.
