

Budget to Complete

\$6.3M

Total Projected Cost

\$6.3M

This proposal enhances funding for the Active Transportation Access and Connections Program (CIP PW-W/B-56) consistent with the Mobility Implementation Plan intent to provide and improve safe, continuous and connected facilities for people walking and bicycling throughout the city and to serve specific types of destinations, including transit stations. Projects funded through this program enhance mobility for everyone and simultaneously promote community health, foster environmental sustainability and support transit ridership. The program provides access and enhances safety and connections for people walking and bicycling to schools, shopping, housing, jobs, transit, parks and other destinations. Program resources build discrete small projects and are often used to leverage grants, and to enable partnerships with other city programs, agencies, and the private sector to construct larger-scale projects.
