Consulting this resource is strongly advised when applying for funding from Bellevue. The Human Services Commission is committed to the City of Bellevue's policy of supporting the continuum of human service needs. This ensures that critical human services are available to all Bellevue residents. The continuum of human services is reflected in the following goal areas:

\*Behavioral health includes mental health and substance use treatment.

## FURTHER CONSIDERATIONS

These factors will also be considered when reviewing applications:

- **Contract performance.** Contract performance for currently funded programs, including meeting or exceeding contract goals and demonstrating the effectiveness of services through measurable outcome results. The use of evidence-based practices is also encouraged.
- **Variety of funding sources.** Programs with funding sources in addition to Bellevue's funding, such as agency fundraising and funding from foundations, will be given higher priority. Support from other regional funding sources (e.g. King County Continuum of Care, King County Mental Illness and Drug Dependency (MIDD2), King County Best Starts for Kids Levy; Veterans, Seniors and Human Services Levy), and other Eastside cities is also encouraged.
- **Diversity and Cultural Competence.** The City Council's Vision Statement says, "Bellevue welcomes the world. Diversity is our strength." Bellevue values all forms of diversity, including race, language, ethnicity, gender, sexual orientation, ability, and age. Applicants are encouraged to highlight their cultural competence in these areas.
- **Partnerships and Collaborations:** Programs that demonstrate substantive partnerships with programs within or outside the agency (e.g. with public or private organizations, faith communities, etc.) will be given priority.
