

I-405 Non-Motorized Crossing

This project funds the City of Bellevue’s participation in the design development of a new non-motorized crossing (multi-purpose path) of I-405 in the vicinity of NE 6th Street to be implemented through a public-private partnership. Funding created a new project manager position within the Transportation Department who is Bellevue’s point of contact and a collaborative member of the team responsible for the design of the new crossing. Bellevue’s project manager will be a project advocate helping to advance the project’s design phase and facilitating coordination between the design team, WSDOT, Bellevue staff, and other stakeholders. This proposal also funds staff time from various departments for project review and coordination, permitting, property acquisition, outreach and communications, and also funds independent review and design services confirming that the proposed design is compatible with the Grant Connection Framework and other city plans and standards.

**Project Number:** PW-R-216  
**Project Type:** Transportation  
**Status:** New

**Budget to Complete**  
\$41.7M
