**Subject:** Outstanding Park Employee

Greetings,

I am a daily user of the Lewis Creek Park trail system and just wanted to express my appreciation regarding a recent interaction I had with a Parks Maintenance Trails employee named Maurice at Lewis Creek Park.

We struck up an enjoyable conversation as he was emptying a garbage can at the top of the park and, after some talking about various things, I informed him that there were some large limbs hanging out over the trail which became hazardously low (particularly when weighted down with snow) and created a situation where a person could hit their head on them.

Maurice said that he would look into it. I was pleasantly surprised when the next morning I saw that he had cut off the offending branches.

Hats off to Maurice for listening to me and his subsequent quick action on this matter. I commend him for being a positive ambassador for the Bellevue Parks Department with his friendly disposition and overall attention to park users needs.

Way to go Maurice!

Sincerely,  
Scott Rogers
