

Budget to Complete

\$9.6M

In November 2016, the residents of Bellevue approved Proposition 2 which assessed a \$0.15 per \$1000 levy to fund Neighborhood Safety, Connectivity and Congestion Management projects. Council identified \$2 million of the levy funds collected be used to begin the planning and design process for projects that help to alleviate congestion affecting neighborhoods. Projects that improve capacity can be expensive to construct thus additional funding is needed to take projects to completion. This capital program will provide the additional budget needed to finish design and complete construction of neighborhood congestion projects that address and ease congestion for motor vehicles within, near and/or connecting neighborhoods to services to improve access and mobility.
