Statement Of Additional Tax, Interest, And Penalty Due Upon Removal Of Classification

1. Upon removal of classification, an additional tax shall be imposed which shall be due and payable to the county treasurer 30 days after removal or upon sale or transfer, unless the new owner has signed the Notice of Continuance. The additional tax shall be the sum of the following:
 - (a) The difference between the property tax paid as "Open Space Land" and the amount of property tax otherwise due and payable for the last seven years had the land not been so classified; plus
 - (b) Interest upon the amounts of the difference (a), paid at the same statutory rate charged on delinquent property taxes.

- (c) A penalty amounting to 20% of the sum of (a) and (b) shall be applied to the additional tax if the classified land is applied to some other use except through compliance with the property owner's request for withdrawal process, or except as a result of those conditions listed in (2) below. A penalty is not imposed when the land has been classified for at least ten assessment years at the time it is withdrawn from classification and the owner submitted a request to withdraw classification to the assessor.
2. The additional tax, interest, and penalty specified in (1) above shall not be imposed if removal resulted solely from:
- (a) Transfer to a government entity in exchange for other land located within the State of Washington.
 - (b) A taking through the exercise of the power of eminent domain, or sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power.
 - (c) A natural disaster such as a flood, windstorm, earthquake, wildfire or other such calamity rather than by virtue of the act of the landowner changing the use of such property.
 - (d) Official action by an agency of the State of Washington or by the county or city where the land is located disallows the present use of such land.
 - (e) Transfer of land to a church when such land would qualify for exemption pursuant to RCW 84.36.020.
 - (f) Acquisition of property interests by State agencies or agencies or organizations qualified under RCW 84.34.210 and 64.04.130 (See RCW 84.34.108(6)(f)).
 - (g) Removal of land classified as farm and agricultural land under RCW 84.34.020(2)(f) (farm homesite).
 - (h) Removal of land from classification after enactment of a statutory exemption that qualifies the land for exemption and receipt of notice from the owner to remove the land from classification.
 - (i) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120.
 - (j) The creation, sale, or transfer of a conservation easement of private forestlands within unconfined channel migration zones or containing critical habitat for threatened or endangered species under RCW 76.09.040.
 - (k) The sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in the land if the land has been assessed and valued as designated forest land under chapter 84.33 RCW, or classified under this chapter 84.34 RCW continuously since 1993. The date of death shown on a death certificate is the date used.
 - (l) The discovery that the land was classified in error through no fault of the owner.

45 = total bonus category points

150 = Total of open space resource and bonus category points results in a Public Benefit Rating (see valuation schedule on page A-6)

If public access points are requested, please list the user group(s) presently allowed access to the property. For what purpose does the public use the property? Please attach documentation that supports this type of use, such as letters from user groups. **For a property to be eligible, the owner must demonstrate the property is currently used by the public or will be used by the public within the property's first year of participation.**

Dog walkers and hikers. Dog run off leash. Hikers and families with young children

use the space for open outdoor play or walk.

Local Llama farmer stops with his llamas during their walk.

Local horse and sonkey herder uses space for herding and watering.

If proposing public access, describe how the land can be reached. Are there private or public roads to the site? Are there any restrictions, such as an easement or physical barriers, which would inhibit public access? Are there any specific restrictions you think are necessary, such as hours, seasons or activities?

Current equestrian, hiking and biking trail has three entries into the open space preserve.

No physical barriers or restrictions apply. Access from the 137th Ave NE

through the driveway and trail from front of the property.

III. Estimate of Percentage Reduction (for your information only)

Please remember county (and city staff, if applicable) will review your application and determine category eligibility. Final approval/decision will be made by the granting authority. When estimating the actual effect on your property's valuation and your tax bill, please remember your assessment as open space/current use land will be calculated **only on the land value of the portion of the property enrolled.** *The property will still be assessed at "highest and best use" rates for the residence/improvements and for any other non-participating land.*

RESOURCE CATEGORY JUSTIFICATION

In the space provided, please explain why credit should be awarded for each category marked on page A-5. If additional space is needed, please use a separate sheet of paper and attach it to back of the application.

Active trail linkage: open to passage by general public

Aquifer protection area: Trails End community of 60 homes are dependent on this water from the well fed by this surrounding area for all the water consumed. There is no Bellevue city water used in this community.

Ecological enhancement land: Land owner and Puget Sound Energy under the Energize Eastside project have committed to a native ecological restoration and funds have been expended towards this goal. There is a warranty offered by Puget Sound Energy towards attaining this outcome.

Equestrian-pedestrian-bicycle trail linkage: Trail is open to passage by general public.

Public recreation area: This space is accessible to the public and is currently used by the public and their pets as well as herd animals. This is also accessed by wildlife as previously stated.

Scenic resource, viewpoint or view corridor – View corridor is provided both north and south of this open space and is among very few open skies view spaces in the Bridge Trails neighborhood of NE Bellevue.

Significant plant or ecological site – With current and the newly established restoration of native plants, trees and the native pollinator meadow this is a significant ecological site for the wildlife in close proximity to the Bridge Trails Park.

Significant wildlife and salmonid habitat – Wildlife resident and passing through this space have been previously stated.

Surface water quality buffer – Trails End community water well is fed by surface water from this space.

Urban open space – Open space with views and located in urban city limits of Bellevue.

Watershed protection area - Trails End community water well is fed by surface water from this space.

Bonus:
Easement and access – Easement and access provided for trail, power transmission and oil pipeline.

Public access – Access provided both through trail easement as well as exercised by public through in practice access with no restraints enforced by land owner.

Resource restoration – restoration plan underway as implemented under Puget Sound Energy's restoration plan with land owner. Native species and ecology restored with control mechanisms in place for invasive species management and eradication.
