

# Technology Solutions Award, 2017 Public Technology Institute

Bellevue Information Technology Department in partnership with:

# Public Safety Category for the Fiber Local Loop

Greater resiliency  
for NORCOM 911  
backup dispatch  
center in Redmond

Faster speeds for  
Kirkland applications  
housed in Bellevue's  
Data Center

Expands larger fiber  
ring around  
the lake

# Strategic Focus Areas for Smart Cities: Connectivity

**Resiliency  
Outcome**

**Principle Strategy:  
Regional  
Relationships**

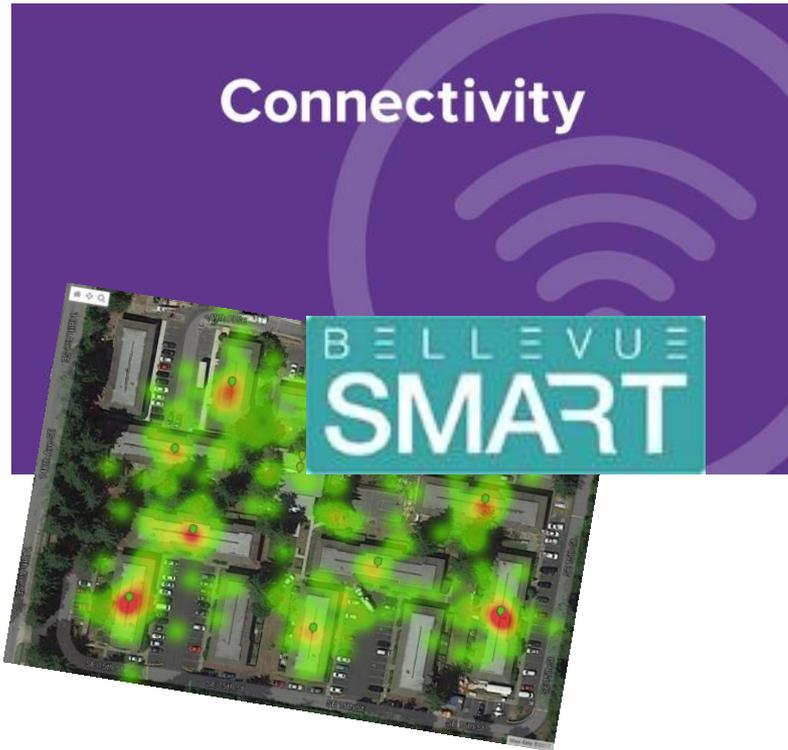

**Principle Strategy:  
Proactive and  
Adaptive Systems**

**Connectivity Goal: Improve consumer services and communications infrastructure, through an emphasis on increasing high-speed communications**

# Smart City Connectivity Accomplishments to Date

- Fiber ring around the lake and local loop completed
- UW's Global Innovation Exchange building connected to fiber network
- Free public Wi-Fi available at Spiritwood Manor
- Free, public, Wi-Fi downtown (upgraded), Crossroads, Community Centers and City Hall
- And now a PTI Technology Solutions Award for Public Safety
