

Panel Conversation: Trends and Challenges in Community Health

Human Services Commission Meeting
November 7, 2023

What are misconceptions or misunderstandings about community health needs or services in our community?

What are the most significant human services needs and barriers impacting community health access and services?

Provide a brief overview of your program and the services provided that address these needs and barriers?

What challenges is your agency experiencing that the Commission should be aware of?

Commissioners are now
invited to ask any
additional questions.

What did you hear that might
change how you approach
future funding conversations?
