AMI Update

Brian Bartle | Utilities
February 04, 2021

Direction Needed from Council

Today is informational only. No action required.

AGENDA

Background

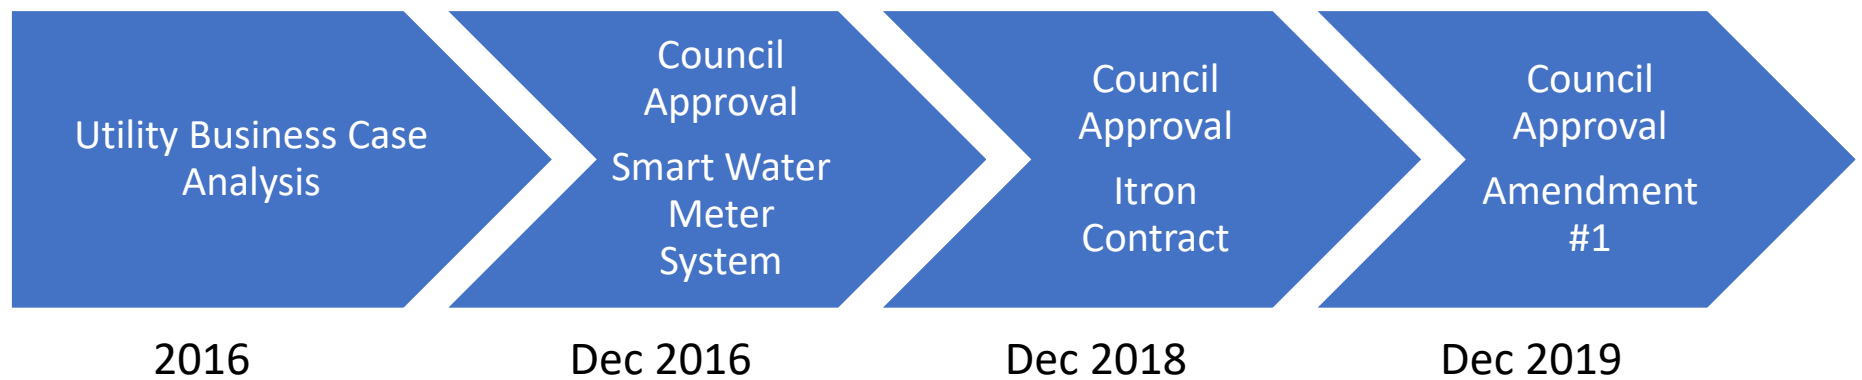

Project Update

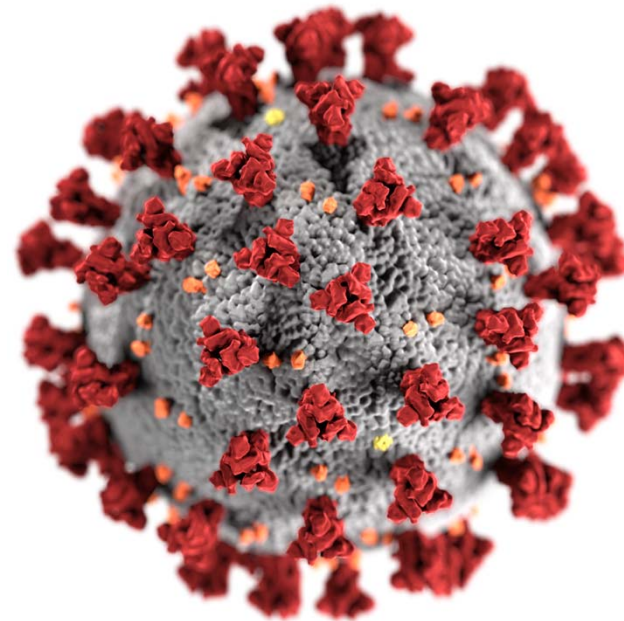

Next Steps

Background

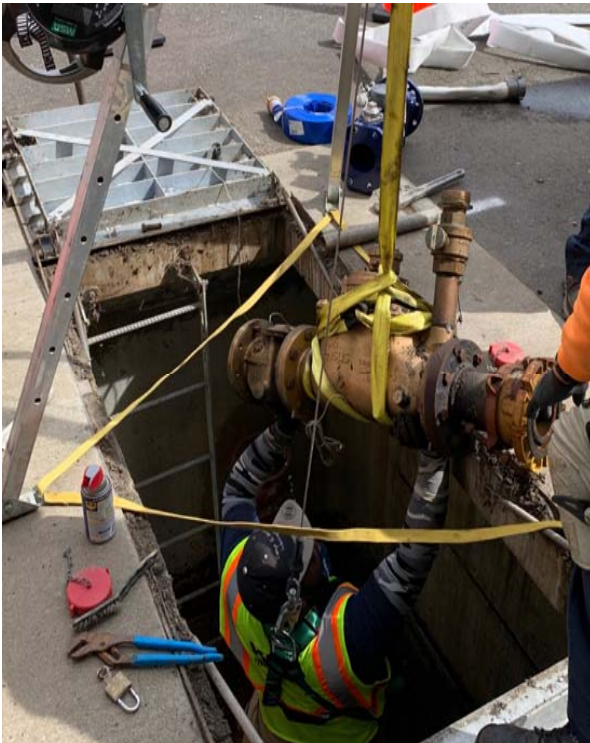

COVID Impact

- Challenge to production of the transmitters only
- Revised installation schedule incorporates a 6-month late start but keeps the end date near mid 2022

The Good News

- 90% of Commercial Meters

The Good News

- 00

Next Steps

- Amendment #2 coming soon
- Begin 10,000 residential meter installation in the next month or two
- Field testing of transmitters begins in April
- Transmitter installation begins in Q3 of 2021

Thank You
