<b>100% AMI [MEDIAN INCOME]</b>							
Household Income	\$80,990	\$92,560	\$104,130	<b>\$115,700</b>	\$124,956	\$134,212	\$143,468

### Affordability Levels by Household Income in ARCH cities

The chart below aligns affordability levels with those units that are regulated within ARCH cities. ARCH data shows the average household income for residents of regulated rental housing within ARCH cities. This clearly displays how higher AMI units tend to be rented to households of lower income brackets. This is particularly true in the highest brackets. In 80% AMI regulated units in ARCH cities, the average household income is only 57% of the median, much lower than the 80% maximum permitted.

<b>Average Household within ARCH Units (2016-2019)**</b>		
<b>Affordability Level</b>	<b>Household Income</b>	<b>Approximate Household AMI</b>
<b>50% AMI</b>	\$32,968	38% AMI
<b>60% AMI</b>	\$39,232	46% AMI
<b>70% AMI</b>	\$43,165	50% AMI
<b>80% AMI</b>	\$48,798	57% AMI
<b>85% AMI</b>	\$39,775	46% AMI
<b>90% AMI</b>	\$46,557	54% AMI
<b>100% AMI</b>	\$76,579	89% AMI
<b>105% AMI</b>	\$50,941	59% AMI
<b>120% AMI</b>	\$59,664	69% AMI

### Household Incomes and Rental Units in Bellevue

The chart below shows the distribution of household incomes and available units across Bellevue in

2016. Most of these units are not regulated units. At the lowest AMI levels (0-50% AMI), more households fall within that category than there are units available at that category. This explains the trends in the chart below, where households occupying 50% AMI and higher units tend to be of lower income levels.

	Bellevue Housing Data: Existing Households (2017)		Bellevue Housing Data: Existing Units (2016)		Regulated Units: Bellevue (2020)*
Unit Range	# of Households	% of Households	# of Units	% of Units	# of Units (Rental)
0-30% AMI	5670	10%	1735	3%	335
31-50% AMI	4875	9%	3035	6%	971
51-80% AMI	4850	9%	8070	15%	1670
>80% AMI	39285	72%	41295	76%	991

*\* Average across ARCH rental units, not Bellevue-specific*

## Bellevue Residents' Cost Burden by Income

Between 2013 and 2017 (the most recent data available) almost one-third (30%) of Bellevue households were cost burdened, meaning they spent more than 30% of their income on housing. This included 14% of households that spent more than 50% of their income on housing (severely cost burdened). For households whose income is below half of the area median income (AMI), 58% are severely cost burdened. Renters are more likely to suffer some sort of cost burden than owners.
