

## CITY COUNCIL REGULAR SESSION

Resolution ratifying the 2021 King County Countywide Planning Policies and 2021 Urban Growth Capacity Report.

Emil A. King AICP, Assistant Director, 452-7223

Thara Johnson, Comprehensive Planning Manager, 452-4087

*Community Development Department*

## EXECUTIVE SUMMARY

This Resolution ratifies both the 2021 King County Countywide Planning Policies (CPPs) and 2021 Urban Growth Capacity Report. The chapters of the CPPs have been updated with amendments to the 2012 adopted policies as well as inclusion of new policies to align with the Multicounty Planning Policies (MPPs) and Regional Growth Strategy (RGS) contained in the Puget Sound Regional Council's (PSRC) VISION 2050. The 2021 Urban Growth Capacity Report is a mid-planning cycle assessment on how jurisdictions are achieving the planning goals of their current 2035 comprehensive plans as required by the state Growth Management Act, chapter 36.70A RCW (GMA).

## RECOMMENDATION

Move to adopt Resolution No. 10080.

## BACKGROUND & ANALYSIS

The City Council was presented with an overview on this proposed ratification of the CPPs at its February 7 meeting and directed staff to return with a Resolution for City of Bellevue ratification on the consent agenda.

On December 14, 2021, the Metropolitan King County Council approved and ratified the 2021 King County CPPs and 2021 Urban Growth Capacity Report on behalf of unincorporated King County. The ordinances became effective early this year on January 6. The chapters of the CPPs have been updated with amendments to the 2012 adopted policies as well as inclusion of new policies to align with the MPPs and RGS contained in PSRC's VISION 2050.

The Growth Management Planning Council (GMPC) is responsible for reviewing and recommending policy and map amendments to the CPPs to the King County Council. The GMPC is composed of elected officials from the King County Council, Seattle, Bellevue, Sound Cities Association and special purpose districts. Councilmember Robertson was Bellevue's representative on the GMPC during development of the updated CPPs. Under the state GMA, the CPPs serve as the framework for each local jurisdiction's comprehensive plan, which ensures countywide consistency with respect to land use planning efforts.

Earlier in 2021, on June 23, the GMPC unanimously recommended approval of the 2021 Urban Growth Capacity Report to the King County Council, as reflected in the third Council Library document. The Urban Growth Capacity Report is a mid-planning cycle assessment on how jurisdictions are achieving the planning goals of their current 2035 comprehensive plans as required by the GMA. It implements

the County's Review and Evaluation Program, previously referred to as "Buildable Lands", and includes findings from three key components:

- Analysis of 11 countywide and jurisdictional growth trends between 2006 and 2018 compared to the 2035 growth targets;
- Analysis of achieved densities by jurisdiction based on growth that occurred between 2012 and 2018, and
- Capacity for housing and job growth over the next 20 years.

The guiding principles for the 2021 CPP update include centering social equity and health outcomes, integrating regional policy and legislative changes, implementing the RGS, and providing clear, actionable direction for comprehensive plan updates. As a part of the CPP Update, new growth targets are included for the 2019-2044 planning period. Growth targets are policy statements about the amount of housing and jobs each jurisdiction, including Bellevue, will plan for in their Periodic Comprehensive Plan Update.

The GMPC also recommended that the Affordable Housing Committee (AHC) of the GMPC be tasked with a separate workplan. Due to the complexity, overlapping nature, and GMPC members' desire for further discussion, several amendments regarding understanding and accommodating housing need, holding jurisdictions accountable, and prioritizing where and how resources should be allocated were not presented for a vote. GMPC members felt they would benefit from further refinement and development by the AHC and regional stakeholders and should be informed by forthcoming housing needs data from the state Department of Commerce. The GMPC's recommendation ultimately included a new workplan item for the AHC.

### **Next Steps**

On December 14, 2021, the King County Council approved and ratified the amendment on behalf of unincorporated King County. For the amendments to be adopted they must be ratified by at least 30 percent of city and county governments representing 70 percent of the population of King County within 90 days of the approval by the King County Council, or by April 6.

Under the provisions of the CPPs, cities in King County have 90 days to take formal action to either ratify or disapprove the amendment. No action is deemed to be the same as ratification. Cities are not allowed to modify the proposals as part of the ratification process.

## **POLICY & FISCAL IMPACTS**

### **Policy Impact**

The ratification of the CPPs by the Council will inform the City's periodic update of the Comprehensive Plan, which is to occur by 2024, and changes reflected in the CPP chapters will impact the scope of changes to the City's Comprehensive Plan.

The Urban Growth Capacity Report adopts growth targets for jobs and housing units across cities, including Bellevue. The 2019-2044 Bellevue jobs target is 70,000 new jobs. This will accommodate anticipated market growth in the City. The 2019-2044 Bellevue housing target is 35,000 new units. This is significantly higher than the City's previous 25-year housing target of 17,000 new units for the period

between 2006-2031 and provides a 2:1 jobs to housing unit ratio for the 2019-2044 Bellevue growth increment.

### **Fiscal Impact**

Ratification of the 2021 King County CPPs and 2021 Urban Growth Capacity Report will inform the City periodic update of the Comprehensive Plan, which is to occur in 2022-2024 and will set policy for the City including addressing growth over the next 20 years. Though there is no direct fiscal impact to the ratification of the 2021 CPPs and Urban Growth Capacity Report, the periodic update of the Comprehensive Plan and implementation may influence future decision making and proposed investments. Investments outside of the scope of the current biennial budget may be proposed in future budget processes for Council approval.

### **OPTIONS**

1. Adopt the Resolution ratifying the 2021 King County Countywide Planning Policies and 2021 Urban Growth Capacity Report.
2. Do not adopt the Resolution and provide alternative direction to staff.
