SUBJECT: Crime Activity and Police Response

---

At the Council meeting Monday, July 18, 2022, under the “Report of the City Manager,” I plan to share with the Council an update on the latest crime activity and highlight how the Police Department is actively responding, including recent key arrests related to property crimes and the anti-crime initiative. I also will encourage the Council and the public to take advantage of the newly released interactive data resources on policing activity in the city, which can be found at the following web link: <https://bpd-data.bellevuewa.gov>.
