## King County Crisis Care Centers Levy

Leo Flor (He/Him) Director King County Department of Community and Human Services

## Behavioral Health

## Mental Health & Substance Use Disorder

## People Recover.

**Problems** 

## We've Solved this for Broken Bones...

No walk-in Behavioral Health "Urgent Care"

1/3 Losing Mental Health Residential Capacity

### **It takes People to Treat People** Unsustainable Workforce

### Anyone, Anywhere, Any Time

### King County's proposed **Crisis Care** Centers Levy

Distributed geographically across the county, the centers will provide walk-in access and the potential for short-term stays to help people stabilize. depending on needs, with one center specifically serving youth.

#### Currently

One 46-bed crisis center for 2.3 million people in our county

#### 2.

Preserve and restore the dramatic loss of residential treatment beds:

In 2018, 355 beds providing community-based residential care for people with mental health residential needs existed in King County, Today, only 244 of these beds are available.

#### Currently

Loss of 1 in 3 of our residential treatment beds in recent years

As of July 2022, people waited an average of 44 days for a mental health residential bed.

DAYS

Grow the behavioral health workforce pipeline:

The proposal will create career pathways through apprenticeship programming and access to higher education, credentialing, training, and wrap-around supports. It will also invest in equitable wages for the workforce at crisis care centers.

#### Currently

#### Historic labor shortages

A 2021 King County survey of member organizations of the King County Integrated Care Network found that job vacancies at community behavioral health agencies

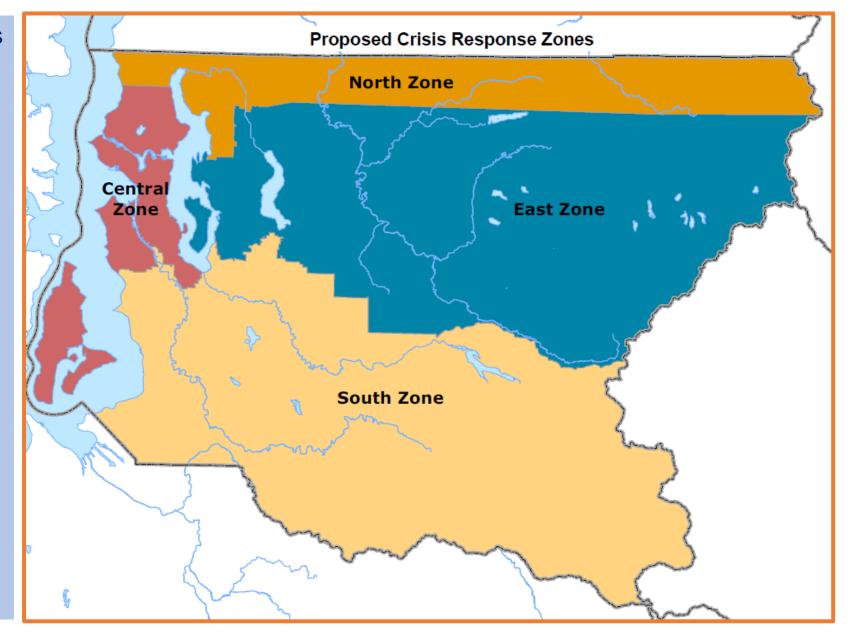

were at least double what they were in 2019.

#### **Paramount Purpose: A Regional Network of 5 CCCs**

§1.C defines 4 Crisis Response Zones

- Each Crisis Response Zone hosts at least one CCC
- At least one CCC specializes in serving children

The purpose of Crisis Response Zones (CRZs) is to promote localized access geographic distribution of CCCs. CRZs do not restrict who can access which CCC.

#### **Paramount Purpose: What is a CCC?** *see* §1.A

Same Day Access to multiple types of crisis stabilization services, which shall include:

24/7 Walk-23-HourIn/Drop-OffObservationBH Urgent CareUnitClinic

**No Wrong Door**: "Shall endeavor to accept at least for initial screening and triage any person..."

Single Facility or Grouped Facilities that are adjacent or with transportation provided

14-Day CrisisStabilization:16 beds forshort-term care

Onsite access to a **DCR** (Designated Crisis Responder) Staff must be multidisciplinary and include **peers**.

May incorporate *compatible* preexisting facilities

#### **Paramount Purpose:** Who Will Site & Operate CCC's?

- Crisis Care Centers would be operated by provider agencies under contract to DCHS's Behavioral Health and Recovery Division.
- Crisis Care Centers would be sited by providers proposing sites w/ host jurisdiction support through an RFP or a similar procurement process.

The proposed Ballot Measure Ordinance is silent on this issue other than requiring an Implementation Plan. CCC operations/siting would be governed by the Implementation Plan. Except for election cost and up to \$1M in initial planning, Levy proceeds may not be spent until the Implementation Plan is enacted.

### Supporting Purpose One: Restore Mental Health Residential Capacity

# Context: King County lost one-third of its mental health residential beds since 2018.

See <a href="https://www.seattletimes.com/seattle-news/mental-health/where-did-king-countys-mental-health-beds-go/">https://www.seattletimes.com/seattle-news/mental-health/where-did-king-countys-mental-health-beds-go/</a>

#### Supporting Purpose One would

- reinforce remaining facilities to prevent further loss and
- build back at least 111 beds.

New facilities would be limited to 16 beds, requiring at least 7 new facilities. Why 16 beds?

### Supporting Purpose One: Restore Mental Health Residential Capacity

### What is Mental Health Residential?

- A recovery-oriented place to live
- Residential treatment
- Case management & practice for basic life skills
- Supports for individual treatment & group sessions
- A setting that builds community within community

#### **Supporting Purpose Two: Workforce**

Context: Provider staff vacancies doubled between 2019 and 2021.

- Invest in systemwide supports to increase the sustainability and representativeness of the entire behavioral health workforce
- Make specific investments at CCCs to support robust, sustainable, and representative staffing

#### **Projected Costs** for a 14.5 cent, 9-year Countywide Levy
