Description and Scope

This project is a partnership between King County Metro (Metro), Bellevue College (BC) and the City. The proposal will reconstruct a campus roadway (Snoqualmie River Road) and convert the roadway into a public city street to accommodate frequent transit bus service with sidewalks a multiuse trail and modify the 142nd Place SE/SE 32nd Street intersection. A Bellevue College Transit Center is envisioned to be developed along the corridor. This current funding request will advance design in partnership with Metro and BC and help the City compete for grant funding.

Rationale

This project provides an east-west connection to businesses, parks, shopping and the I-90 trail. Residents want to use multiple modes of travel but there are no pedestrian and cycle facilities along this stretch of roadway. The project responds to one of the City's primary responsibilities: public safety and the need to minimize the City's liability by preserving the transportation infrastructure. This project helps to accomplish the department's mission to provide a safe and efficient transportation system that supports livable neighborhoods, a diverse community, and a vital economy.

Environmental Impacts

An environmental determination will be made in conjunction with preliminary engineering for the project. It is expected that this project will receive a SEPA-DNS (Determination of Non-Significance) and a NEPA-CE (Categorical Exclusion).

Operating Budget Impacts

Operating costs for this project will be determined during the project's design phase.
