

130th Avenue NE - Bel-Red Road to NE 20th Street

This project provides multimodal improvements along 130th Ave NE between BelRed Rd and NE 20th St. The improvements include curb, gutter, sidewalk, landscaping, illumination, drainage, water quality treatment, separated bicycle facilities on both sides of the street, on-street parking at select locations, potential mid-block crossings, intersection improvements including turn lanes at NE Spring Blvd, potential traffic signal and intersection modifications at NE 20th St and at BelRed Rd, and accommodation for a East Link light rail crossing at the NE Spring Blvd alignment.

The project has been designed in coordination with the Sound Transit East Link project crossing 130th Ave NE at the NE Spring Blvd alignment, the planned light rail station and park & ride facility between 130th and 132nd Ave NE, private development in the vicinity, and the NE Spring Blvd - 130th to 132nd Ave NE project. The project design reflects urban design criteria set forth in the BelRed Streetscape Plan.
