

CITY OF BELLEVUE, WASHINGTON

ORDINANCE NO. \_\_\_\_\_

AN ORDINANCE amending the Transportation Standards Code to reflect recent amendments to the Transportation Element of the Comprehensive Plan; amending Sections 14.10.030 and 14.10.060 of the Bellevue City Code; updating Figure TR-1 in Section 14.10.060 of the Bellevue City Code; and establishing an effective date.

THE CITY COUNCIL OF THE CITY OF BELLEVUE, WASHINGTON, DOES ORDAIN AS FOLLOWS:

Section 1. Section 14.10.030 of the Bellevue City Code is hereby amended as follows:

**14.10.030 Level-of-service standard.**

A. Area-Average Level-of-Service Standards. P.M. peak period (averaged) level-of-service standards are tailored for each mobility management area, reflecting distinct conditions and multiple community objectives, with an area-average approach used to measure system adequacy. In this approach, the average level-of-service of the system intersections within each area is calculated. The congestion allowance specified for each mobility management area is the maximum number of system intersections allowed to exceed the area-average level-of-service standard set for a mobility management area. The area-average level-of-service standard and the congestion allowance for each mobility management area are:

Mobility Management Area (MMA)	AreaMMA-Average LOS Standard (Maximum v/c Ratio)	Congestion Allowance
