WHEREAS, PolicyTR-93 of the Transportation Element of the Comprehensive Plan states that the City will protect residential neighborhoods adjacent to high capacity transit facilities from spillover impacts, including parking and cut through traffic, resulting from system construction and/or operation, using techniques such as residential parking zone programs and traffic calming measures, and monitoring the outcomes of these efforts and making adjustments as needed to ensure continued effectiveness; and

WHEREAS, Policy TR-149 of the Transportation Element of the Comprehensive Plan states that City will minimize spillover parking into residential neighborhoods through residential parking zones and other measures; and

WHEREAS, as a result of construction for the East Link light rail line project, the South Bellevue park-and-ride is anticipated to close as early as January 2017; and

WHEREAS, Sound Transit in conjunction with King County Metro has identified satellite park-and-ride locations to mitigate lost parking at the South Bellevue park-and-ride; and

WHEREAS, transit will continue to serve Bellevue Way creating the potential for spillover parking to occur in the Enatai Neighborhood during the East Link construction period; and

WHEREAS, the spillover parking impacts in the Enatai neighborhood are currently unknown; and
