**Description and Scope** 

This program funds minor capital improvements for neighborhood traffic calming/safety projects throughout the City. These projects may include the use of physical measures such as speed humps, raised crosswalks, traffic circles, medians and/or curb extensions, in an effort to reduce vehicle speeds, non-local traffic and to improve walking and bicycling safety and school zone improvements such as flashing 20 MPH school zone signs.

#### Rationale

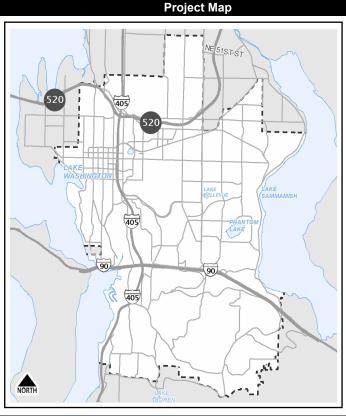

The primary benefits of this investment are improved safety and protection of quality of life for neighborhoods. As traffic congestion increases on arterials, the potential for cut-through traffic and higher speeds on neighborhood streets increases. This program focuses on mitigating these impacts through the development of neighborhood traffic calming/safety plans to divert and/or slow traffic, improve non-motorized safety, enhance school zone safety and protect neighborhood quality of life.

### **Environmental Impacts**

This program funds projects that are primarily safety oriented and implemented on previously improved rights of way, so environmental issues are minimal and are addressed as appropriate on a location-by-location basis.

#### **Operating Budget Impacts**

Operating costs for this program will be determined on an as needed basis.
