### Eastgate Land Use Code Amendments/Rezone and Homeless Shelter Related Topics

Kate Berens, City Manager's Office Mac Cummins and Terry Cullen, Planning and Community Development Carol Helland, Development Services Department

#### **Tonight's Meeting – Four Interrelated Topics**

- 1. Eastgate Land Use Code Amendment (LUCA)
- 2. Associated Eastgate Legislative Rezone
- 3. Interim Official Control: Land Use Code provisions regarding homeless shelters
- 4. Interim Official Control: Land Use Code provisions banning safe injection sites

### a) Eastgate Land Use Code Amendment Ordinance 6366

#### Eastgate Land Use Code Amendment (LUCA)

Final adoption of the Eastgate LUCA, including:

- An affordable housing ratio in EG-TOD and NMU
- Maintenance of status quo for homeless shelterrelated provisions from the Eastgate code package
- Previously Incorporated Council Direction

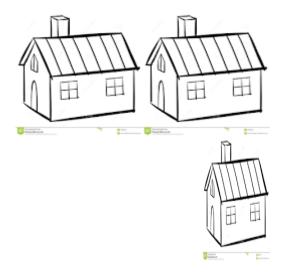

### **Affordable Housing Ratio**

- Council requested additional information on multiple ratios.
- The ratio will be applied in the FAR exemption for EG-TOD and NMU.
- A 2.5:1 ratio balances stakeholder costs and benefits.

### **Affordable Housing Ratio**

### 2.5 market rate units

1 affordable unit

#### Ordinance for Council Adoption includes a 2.5: 1 ratio.

### **Shelter-Related Topics**

- Stakeholders have expressed substantial concern about the proposed shelter in Eastgate.
- Council discussed separating the shelter-related issues from the Eastgate land use code amendments.
- Ordinance for Council adoption:
  - Maintains the shelter permitting status quo.
- Two emergency ordinances proposed later on agenda:
  - Address shelter siting citywide, and
  - Ban safe injection sites.

### **Previously Incorporated Council Direction**

- Require phased development in the EG-TOD zoning district to mitigate transportation impacts over time
- ✓ Include a 1.0 FAR exemption (NMU, EG-TOD) to incent the production of affordable housing in NMU and EG-TOD
- Prohibit use of the housing bonus in NMU/EG-TOD that applies in land use districts that do not have an FAR exemption
- Provide flexibility in the NMU zoning district for the ground floor non-residential use requirement

### **Previously Incorporated Council Direction**

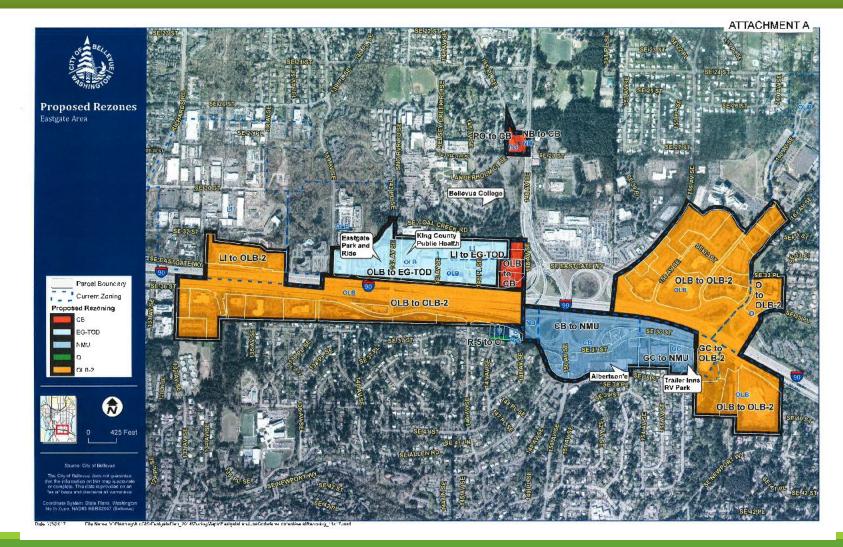

- In the NMU zoning district, allow for 'auto retail' use on properties previously zoned GC (General Commercial).
- Apply adopted Low Impact Development (LID) standards for the three (3) new zoning districts similar to the standards already in place for other like zoning districts.

### **Recommended Action on the Eastgate LUCA:** Following Presentation on all Interrelated Topics

- Staff recommends that Council adopt the final ordinance and associated rezone for the Eastgate land use code amendments which includes:
  - An affordable housing incentive ratio of 2.5:1 at 80% AMI;
  - Maintenance of the status quo on shelter-related provisions in the Eastgate code package; and
  - Previously Incorporated Council Direction.

b) Eastgate Legislative Rezone Ordinance No. 6367

### **Rezone Needed to Apply New Regulations in Eastgate**

### **Transition from Current Zoning to Future Zoning**

| Current Zoning in the<br>Eastgate Corridor | Future Zoning in the<br>Eastgate Corridor |  |  |  |  |
|--|---|--|--|--|--|
| Commercial Business (CB)                   | Commercial Business (CB)                  |  |  |  |  |
| General Commercial (GC)                    | Eastgate-Transit Oriented - NEW           |  |  |  |  |
| Light Industrial (LI)                      | Development (EG-TOD)                      |  |  |  |  |
| Neighborhood Business (NB)                 | Neighborhood Mixed Use (NMU) - NEW        |  |  |  |  |
| Office (O)                                 | Office (O)                                |  |  |  |  |
| Office/Limited Business (OLB)              | Office/Limited Business 2 (OLB 2) - NEW   |  |  |  |  |
| Professional Office (PO)                   |   |  |  |  |  |
| Residential-5 (R-5)                        |   |  |  |  |  |

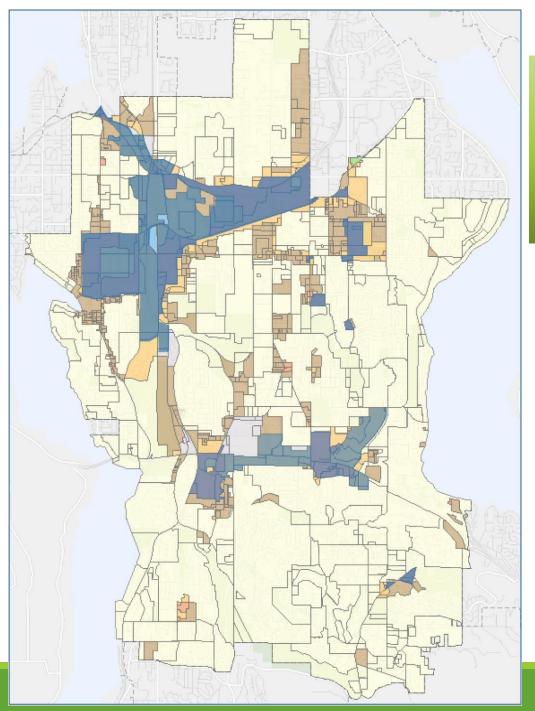

### **Recommended Action on the Eastgate Rezone:** Following Presentation on all Interrelated Topics

Staff recommends that Council adopt Ordinance No. 6367 approving the Eastgate/I-90 Corridor Legislative Rezone

c) Interim Official Control for Shelter Permitting Ordinance No. 6368

### Interim Official Control Amend Land Use Code Regarding Homeless Shelters

- Separates homeless shelter from hotel/motel use
- Clarifies process in short term while preparing permanent citywide regulations
- Requires public hearing within 60 days of adoption

Land Use Districts Where Hotel and Motel Use Permitted (including Shelters)

- OLB
- CB
- Factoria-1
- Factoria-2
- Factoria-3
- All Downtown
- All BelRed
  - Except BR-R, BR-Ort, O, P.O

**Recommended Action on Homeless Shelter Permitting** Following Presentation on all Interrelated Topics

Staff recommends that Council:

- Adopt Ordinance No. 6368 imposing an interim official control regarding the permit process required to establish a homeless shelter, and
- Set a date for a public hearing within 60 days

d) Interim Official Control Banning Safe Injection Sites Ordinance No. 6369

### Interim Official Control Amend Land Use Code Banning Safe Injection Sites

- Creates citywide prohibition
- Provides clarity in short term while permanent regulations are prepared
- Requires public hearing within 60 days of adoption

### **Recommended Action** Following Presentation on all Interrelated Topics

Staff recommends that Council:

- Adopt Ordinance No. 6368 imposing an interim official control banning Safe Injection Sites in Bellevue, and
- Set a date for a public hearing within 60 days

- 1. Eastgate Land Use Code Amendment (LUCA)
- 2. Associated Eastgate Legislative Rezone
- 3. Interim Official Control: Land Use Code provisions regarding homeless shelters
- 4. Interim Official Control: Land Use Code banning safe injection sites

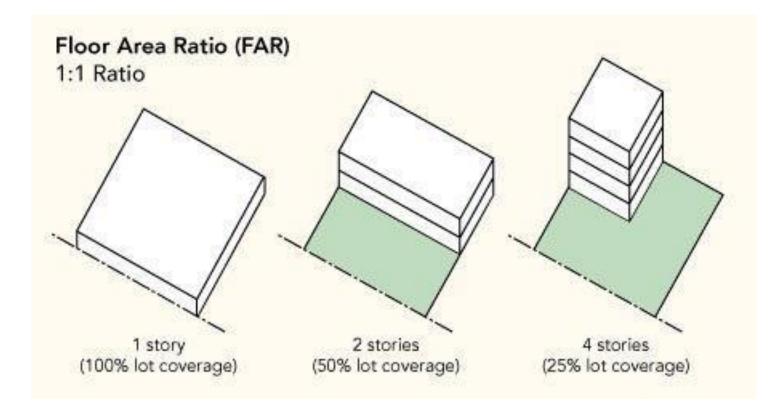

### Eastgate Land Use Code Amendments

**City Council Study Session** 

August 7, 2017

EXEMPTION SCENARIO: 20 EAR

BASE SCENARIO

#### Summary points:

- Approach on this page mirrors what Councilmember Wallace sent, but 1) adds the far right column to allow comparison to existing. Also bottom section might not be exactly what he was laying out, so would need to discuss. This is done using the 2.5:1 ratio. Can easily update to other ratios.
- <u>To get to overall economic impact</u> of affordable units with a rezone, believe it is to compare:
  - Highlighted Box A (Impact on overall project value from affordable to units: Lost value of \$1.337 million; to
  - Bottom row: Impact on land value from base scenario Box B: Increased value of \$2.762 million (might be other box, \$3.029 m.)
- <u>Caveat regarding assumptions</u>. Highlighted in blue are two key assumptions 'multiplier' and land cost as percent of cost. As presented here, they translate to Cap rate of 5.5% and land values greater than \$55,000. Over the past year we've used cap rates around 4.75 and land values more in the \$40,000 (plus/minus depending on neighborhood). His assumptions result in less impact to the developer for providing affordable units. If we change to assumptions we normally use (see next bullet), there is still a positive ratio between cost and benefiti, but it is more in the 1 to 1.25 1.3 range compared to the 2 to 1 from the chart on this page.
- <u>Historic Approach</u>. Next page is the summary/approach typically use. The result seems more conservative than this page. Primarily due to different assumptions as described in the previous bullet (typically we try to use somewhat conservative assumptions.
