12,447,186	11,110,186	175,000	180,000	185,000	191,000	196,000	202,000	208,000

Description and Scope

This program funds minor capital transportation improvements throughout the City to address traffic operation issues and concerns. This program helps fill a need in the City to address projects that are important to safety and mobility but are too small to compete as individual Capital Investment Program (CIP) projects. Typical projects include new crosswalk installations, sign upgrades, channelization improvements, access management improvements, new bike lanes, bicycle route signing, and sidewalk and new curb ramp installations. This program also implements pilot projects using new, innovative traffic control devices and evaluates their effectiveness. This program often provides matching funds to grant funded projects to improve pedestrian and bicycle mobility while observing ADA requirements.

Rationale

This program provides funds for traffic operation improvement projects that are beyond the scope of the operating budget but too small for individual CIP projects. The program allows the City to respond on an ongoing and timely basis to citizen projects and safety related requests, unfunded mandates, changes to standards, partnership opportunities with other capital or private development projects, and other emergent needs. Annually, this program can complete 5-7 standalone projects that directly address safety, mobility and connectivity in Bellevue. This includes support of the crosswalk improvement program. The needs for crosswalk improvements in Bellevue far exceed the budget available through small on-going CIP proposals, but this program consistently helps address some of the most critical locations. This program has also been leveraged to support grant applications through providing matching money.

Environmental Impacts

This program funds projects that are primarily safety oriented and implemented on previously improved rights of way, so environmental issues are minimal and are addressed as appropriate on a location-by-location basis.

Operating Budget Impacts

Operating costs for this program will be determined on a project specific basis as required.

Project Map**Schedule of Activities**

Project Activities	From - To	Amount
Project Costs	Ongoing	12,447,186

Total Budgetary Cost Estimate: 12,447,186

Means of Financing

Funding Source	Amount
Charges for Services	2,390
Contributions from Other City Funds	10,290
Developer Contributions	47,821
