Dear Emil & Planning Commissioners, FOR PUBLIC RECORD

Please discuss in your upcoming meeting next week to confirm as follows:

1- See attached Bellevue Reporter News published regarding Vision Zero Gun Safety by 2035. You have your own records for this Comprehensive Planning LUC Code situation & 4-2 decision to Reject citizen proposed submittals on May 22, 2019.

2- I did personally, in writing, make a formal request for transfer of the entire record file of all documents submitted to Planning Commissioners, forwarding to Brad Miyake for Vision Zero Gun Safety by 2035 Submittals.

Your official decision hopefully was based on facts and data submitted as well as Staff review. Several Commissioners suggested MORE DATA was needed, however, to make a good decision for this Comprehensive Plan Revision.

3- Please confirm and establish that ALL relevant documents were transmitted as confirmed that they would be.

4- Nathan McCommon is conducting reviews of this situation and additional Firearms Safety Matters for presenting to Bellevue City Council on Tuesday, January 21, 2020.

Nathan & Brad Miyake will benefit greatly by having all of the data, reports, analyses and recommendations submitted to you in our Bellevue Planning Commissioners Role in evaluating City of Bellevue needs for more information.

I'm convinced that Bellevue needs to address risks of more shootings, murder, suicides, violent attacks, school threats, public threats, violent threats and hate crimes related to lack of adequate City of Bellevue planning and resources to protect our children, teachers, general public, businesses, etc.

Thank You. Vernon Dwight Schrag
