Agenda Item for February 2, 2021 Commission Meeting

Overview of Bellevue Misdemeanant Probation Division and Coordination with Human Services

Brad Nonaka, City of Bellevue Probation Manager, will give a presentation to the Commission describing what this division's role is in the City, and implications for how the Human Services Commission can be informed about the human services needs that the Probation Staff have identified for their clients particularly in light of the pandemic. Many of the Probation clients are court ordered to participate in programs such as substance use disorder treatment and many have limited financial resources to comply. After his presentation, Mr. Nonaka will have time for questions and a discussion about how best to coordinate the needs of the Probation clients and services provided by our local human services organizations funded by the City.
