DATE: February 4, 2021
TO: Environmental Services Commission
FROM: Don McQuilliams, Operations Manager – Regulatory Compliance
SUBJECT: 2021 Draft Stormwater Management Program (SWMP) Update and Public Hearing

Action Required at this Time

Staff will present the 2021 Draft Stormwater Management Program Plan. Staff will invite comments from the ESC and the public following the presentation.

Fiscal Impact

N/A

Policy Issues

This meeting will serve to meet the requirements of the NPDES Phase II Municipal Permit under section S5.C.3 - Public Involvement and Participation. ESC staff are welcome to provide comment on the Draft SWMP as well as the public. This meeting will serve as an opportunity for the public to comment on the Draft SWMP and will be advertised as a public meeting in local newspapers and on the City website.

Background

The City of Bellevue operates the Storm and Surface Water System under the National Pollutant Discharge and Elimination (NPDES) Phase II Municipal Permit. This permit allows for the discharge of stormwater to 'waters of the state' (lakes and streams within Bellevue). Annually we are required to update the Stormwater Management Program Plan and to invite public participation to comment on the draft SWMP.
