Questions-of-the-Day

- What's the biggest success in your garden this year?
- What do you miss the most from delivering tours at BGG?
- What are you looking forward to once we're back to "normal"?

Thank you for your webinars. While I would most likely not travel to Bellevue to attend, I have very much enjoyed the opportunity to participate from home. -Debra

The Garden has been one of our regular walking destinations for over 25 years...Now...it is the only place we walk, and we are so grateful to know that for an hour every day we can feel safe and nurtured in this beautiful place. -Timmie

We love [the Garden]... It's so well cared for—a heartening reminder of how many people are constantly working together and caring about providing this inspiration to everyone. -Diane & Michael

I can't tell you how grateful I am for your virtual programs! I live alone and often feel isolated, and watching one of your webinars helps me feel like I'm part of humanity. -Katie

My husband and I don't have any outdoor space in our apartment, so we have come to see Bellevue Botanical Garden as our garden. -Irene

The Garden is magical. It's a place to go that is full of emerging life and hope. Like an old friend it greets you with open arms and engages your mind and body. -Andie

WATERW...
GARDE...

www.waterwaygardens.com

A water garden will take you to a peaceful place where you can relax and enjoy the beauty of nature.

Water gardens are a great way to add a touch of tranquility to your outdoor space. They can be designed in a variety of styles, from traditional to modern. Water gardens can also be a great way to attract wildlife and create a habitat for birds and insects.
