Description and Scope

The current CIP provides funding for the replacement of the city's budgeting system, continues funding for upgrades, enhancements to the City's Financial ERP system, support and modification to the Business and Occupation (B&O) tax system (PRAXIS) and minor software purchases that increase productivity and integrate with the existing Finance and Asset Management and HR core system. This project priginally provided for the replacement of the City's finance and human resource systems with the JD Edwards ERP system.

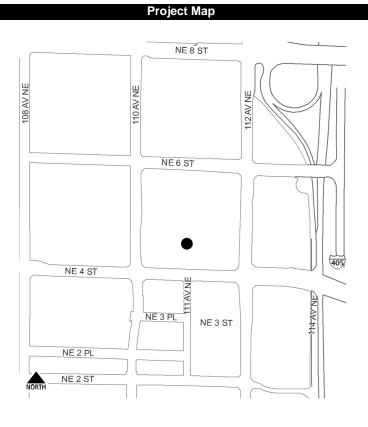

<u>Rationale</u>

A stable and accurate Finance, Asset Management, and Human Resources System provides information required for financial planning, financial management, and enabling the workforce to achieve their potential. The ERP system equips the organization with the technology to perform financial management and conduct financial operations in a timely, consistent, and predictable manner.
