9,239,400	9,239,400	-		- Description a	- and Scope		-	-
The scope of the project includes the permitting and construction of the improvements at the corner of Bellevue Way and NE 4th Street. Improvements will provide a critical connection to downtown Bellevue. It also occupies a strategic location of the Grand Connection and will provide a key feature and early implementation item for that vision. Planned elements include a water feature, significant art element, and pedestrian connections to the central promenade and formal gardens along the park's north-eastern edge. Rationale								
Policy goals to com			unterin Deul			à Oannach an	-i va Diava Daviv
