The article on the Mobility Implementation Plan in the publications “It’s Your City” and “Neighborhood News” was released on July 1, 2021.

During the study session on July 8, 2021, staff welcomes input from the Commission on the content of the questionnaire.

The intent is to learn the community experience with the existing transportation system and their expectations for the future. Information gleaned from responses will help the Commission to prepare a final recommendation for the Mobility Implementation Plan.

NEXT STEPS

Staff will report the results of the questionnaire to the Transportation Commission at a September study session.
