Mobility Implementation Community Based Organization (CBO) Outreach

SUBJ: Bellevue's Mobility Implementation Plan needs your input

Dear NAME/Title

NAME OF ORGANIZATION

My name is Marie Jensen, public involvement manager, for the Bellevue Transportation Department. I'm reaching out to community-based organizations, such as the NAME OF ORGANIZATION, that support people who live, work and seek services in Bellevue regarding an important transportation planning document we are working on – the Mobility Implementation Plan (MIP).

The MIP will help us make decisions about investments to our transportation system that meet the needs of anticipated population and job growth, use an equity index for prioritizing projects and create projects that minimize the impacts of transportation on the environment.

We have launched an online questionnaire at [EngagingBellevue.com/mobility-plan](https://engagingbellevue.com/mobility-plan) and ask that you share the attached announcement with your clients, employees and community networks. Also attached is a [Fact Sheet](#) about the MIP for your reference and graphics.

Your agency has the most direct engagement with people who rely on Bellevue's transportation system. Their input to what they need is so vital to the creation of the MIP.

Thank you for sharing the word about the plan and the questionnaire. Should you need the survey in printed form or translated, please contact me.

Sincerely,

Marie Jensen
Public Involvement Manager
Bellevue Transportation Department

## ANNOUNCEMENT (Attachment)

### Online questionnaire seeks input on your transportation priorities for Bellevue

With Bellevue's transportation system about to integrate light rail and bus rapid transit and with anticipated job and population growth, the city is looking at how it plans for, prioritizes and implements transportation investments. Input is wanted on how the Mobility Implementation Plan (MIP) should reflect the priorities of everyone who walks, bikes, takes transit or drives in Bellevue. An online questionnaire is available through Friday, Aug. 13 at [EngagingBellevue.com/mobility-plan](https://engagingbellevue.com/mobility-plan).

The MIP will consider all modes of transportation, implement an equity index in project identification and prioritization and consider the environmental impacts of projects. It will establish performance measures such as level of service standards and project characteristics.

For more information about the MIP, go to [BellevueWA.gov/mobility-plan](https://BellevueWA.gov/mobility-plan).

CBO's to contact:

1. **Bellevue Diversity Advisory Network (BDAN)** – Elaine Acacio, COB, Diversity Inclusion Program Administrator
2. **Network on Aging** – Dan Lassiter, COB, Staff Liaison
